*Québec*

WHEREAS close to 1900 homes in nearly 130 Quebec municipalities were recently flooded;

*Alberta Council of Electoral Districts*

WHEREAS New Democrats believe that Canada can and must meet our international climate change targets without leaving workers behind; and WHEREAS the Federal government has yet to put forward a plan to support a just transition for coal workers and their communities;

THEREFORE BE IT RESOLVED THAT we call on the Government to support coal workers transitioning to new jobs or retirement by: a. creating new flexibility criteria for EI to ensure income top-ups are not clawed back; b. working with provincial governments to enhance training programs, income supports, and employment transition services; and helping coal communities attract new investment to diversify local economies.

## 2-13-18 Repeal Changes in Omnibus Bill C-45

*Aboriginal Commission*

Whereas Omnibus Bill C-45 amended some 60 federal Acts without Parliamentary debate and without consultation of First Nations Whereas this bill changes environmental legislation, removing protections for water, fish, and the environment and replaced the Canadian Environmental Assessment Act and amended a number of environmental laws, Whereas the Navigable Waters Protection Act is amended to reduce its scope by reducing the number of lakes and rivers where navigation and federal environmental assessment is required from 32,000 to 97 lakes and from 2.25 million to 62 rivers, Whereas it has major implications to the rights of indigenous peoples set out in treaties and the Canadian constitution,

Therefore be it resolved that an NDP government would repeal the changes to preserve environmental protections of Indigenous lands and treaty and constitutional rights.

## 2-14-18 Strengthen environmental assessment

*University--Rosedale, Brampton East*

Whereas a rewrite of federal laws to strengthen environmental assessment is needed;

BE IT RESOLVED THAT section 2.7 of the Policy Book be amended to indicate that New Democrats calls for a new energy project approval process that takes into account First Nations, local communities, UNDRIP, provincial laws and rules, and cumulative impacts on the environment and on the climate. BE IT RESOLVED THAT that the NDP calls for a complete rewrite of federal laws to strengthen environmental assessment for both projects and policy including at least: a. Assessment and public consultation on the sustainability of proposed federal law and policy; b. Public access to environmental information, including reports related to project or policy reviews; c. Only one agency, the CEAA, should undertake all federal assessments of proposed projects; d. ## 2-15-18 Canada/Nova Scotia Offshore Petroleum Board

*South Shore--St. Margarets*

WHEREAS the Canada/Nova Scotia Offshore Petroleum Board (CNSOPB) is a “captured regulatory agency: whose decision makers overwhelmingly represent the industry the CNSOPB is intended to regulate, and WHEREAS the unrepresentative nature of the CNSOPB delegitimizes its determination of acceptable risk to the communities and environment most directly affected by its decisions, and WHEREAS oil and gas exploration and development in Nova Scotia’s offshore put at risk the sustainable economic base of the province’s south and southwestern coastal communities, and WHEREAS time is of the essence, as multinational oil companies a new season of activity in the Nova Scotia offshore, in waters of unprecedented depth and tidal activity, and for which no effective oil spill response exists;

BE IT RESOLVED that the NDP call for an immediate moratorium on further oil and gas exploration in Nova Scotia’s offshore until: • membership of the CNSOPB is fully representative of those most affected by its decisions; • responsibility for environmental assessment (EA) of proposed oil and gas exploratory activity is removed from the CNSOPB and returned to an independent federal EA authority; • steps are taken, in consultation with fishermen and scientists, to identify and to protect critical spawning, nursery, and fishery grounds in the Nova Scotia offshore; and such grounds are protected permanently from oil and gas exploration activity.

Supporting deployment of and interprovincial sharing of renewable energy generation. c. Promoting federal procurement of renewable energy sources and energy efficient facilities. d. Supporting cooperative ventures in generation of renewable energy. e. Ensuring a just transition to a cleaner energy supply, for workers and communities. f. Requiring trade agreements include commitments to clean energy.

## 2-19-18 Just Transition from Fossil Fuels

*Winnipeg Centre, Guelph, Ottawa South, Fredericton, Leeds--Grenville--Thousand Islands and Rideau Lakes, Selkirk--Interlake--Eastman, Ottawa Centre, UONDP*

WHEREAS the energy sector is the livelihood of many Canadians, directly or indirectly; WHEREAS climate change and ecological collapse present an existential threat to the human species; WHEREAS if we are to have any hope of mitigating climate change, our energy production and infrastructure must rapidly transition to non-carbon sources;

BE IT RESOLVED THAT the following clauses be added to Section 2.3 of the Policy Book: i. Generating employment by making massive investments in the construction of renewable energy infrastructure across the country j. A role for the public sector and public enterprise in directing investment and carrying out projects Notes

## 2-20-18 Restore Protection to Canada's Lakes and Rivers

*Niagara Centre*

Whereas New Democrats believe that the federal government should assert its jurisdiction and powers to protect and restore the health of aquatic ecosystems; and Whereas the Trudeau Liberals have failed to fulfill their election promise to restore Canada's lakes and rivers to the Schedule of Protected Waters; therefore

Be it resolved that Canada's New Democrats will commit to amending the Navigation Protection Act to restore protections to all Canada's waterways; and Be it further resolved that Canada's New Democrats will commit to a full environmental assessment for any infrastructure projects that may endanger the health of our lakes and rivers.

- Assist provincial players in this field to become better able to confront the competition in world markets;
- Establish a "green" procurement process based on eco-energy modes of transportation

## 2-22-18 West Coast Salmon Farms

*Port Moody--Coquitlam*

WHEREAS the Cohen Commission on Fraser River Sockeye called for the removal of open-net salmon farms from wild salmon migration routes and, there is mounting evidence of the negative impacts of parasites, viruses and disease from open-net pen salmon farms on wild pacific salmon and many Coastal First Nations never agreed to open-net salmon farms in their territory.

Be it resolved that the following clause be added to section 1.9 (Agriculture and fisheries) of the NDP policy book: 1.9 New Democrats believe in: Transitioning salmon farms on the Pacific coast from dangerous open-net pens to safe land based closed containment systems.

## 2-23-18 Improving Environmental Assessments

*Spadina--Fort York*

WHEREAS there has been an erosion of meaningful democratic decision-making practices on major environmental project approvals. A sound practice should include a blend of technical expertise and public dialogue to ensure that decisions are based on science, their impact on future generations and to lessen the role of lobbyists;

BE IT RESOLVED that the following clause be added to Section 2.3 of the policy book: d. Supporting environmental assessment legislation to safeguard our environment, communities and democracy.

Providing incentives for value-added upgrading, refining and petrochemical manufacturing in Canada to maximize economic benefits and job opportunities for Canadians.

## 2-25-18 Protecting the Thames River System

*Oxford*

Whereas the Conservative government stripped environmental regulations covered in the Navigable Waters Act, leaving hundreds of rivers vulnerable; Whereas the ecological diversity of the North Thames, Middle Thames, and Thames River are at risk;

And Whereas the Liberal government has failed to keep their promise to reinstate the environmental protections gutted from the original Act,

Therefore be it resolved that the federal NDP advocate for the amendment of the Navigable Waters Act in order to protect the Thames River watershed.

## 2-26-18 Transitioning Oil & Gas Workers

*Alberta Council of Electoral Districts , Edmonton Manning, Edmonton Mill Woods*

Whereas Canada's economy is strongly dependent on oil and gas, and a large number of jobs are based on the oil and gas industry; Whereas the economy is rapidly shifting towards renewable energy sources such as solar and wind;

Be it resolved that Canada's New Democratic Party adopt the following: 1. Urge the federal government to develop a strategy to transition oil and gas workers into renewable industries through additional supports for job retraining. 2. As the oil and gas industry draws down, ensure that it is done in an equitable manner, protecting jobs and livelihoods, including, but not limited to populations such as First Nations, Métis and Inuit, women, refugees and immigrants.

## 2-27-18 Returning Carbon Pricing Revenue to Low-Income Households

*York South--Weston*

Whereas Carbon Pricing will have a disproportionate impact on the poor

Be it resolved that Chapter 2, Section 2.3b be amended to add, after the word 'government', "and that some of the revenues so generated be returned to low-income households in the same manner as the GST rebate, calculated as the per-household costs of such carbon market."

## 2-28-18 Sustainable transportation

*Québec*

WHEREAS the transportation sector is one of Canada's leading emitters of greenhouse gases; WHEREAS new road projects must necessarily be thought out from an intermodal perspective, where conditions allow;

BE IT RESOLVED THAT the NDP support an approach involving the integration of alternative modes of transportation other than the single-occupancy vehicle into the construction and upgrading of federal highways in Canada.

## 2-29-18 Halting the Spread of Mountain Pine Beetle

*Edmonton Manning, Alberta Council of Electoral Districts*

WHEREAS, over the past several years, an unmanaged population of mountain pine beetles in Jasper National Park has been rapidly expanding, including east of the part border AND WHEREAS, the further spread of pine beetle beyond the Eastern Slopes would threaten the economic viability of our communities, have significant impacts on threatened and endangered species and pine beetle-killed forests substantially increase the intensity and rate of spread for wildfires.

BE IT RESOLVED that the New Democratic Party of Canada advocate to the Federal Government to engage with Alberta to create a strong and coordinated effort to halt the spread of Mountain Pine Beetle beyond the Eastern Slopes. BE IT RESOLVED that the New Democratic Party of Canada advocate to the Federal Government to create a strong and coordinated effort to halt the spread of Mountain Pine Beetle beyond the Eastern Slopes; and to provide funding for existing Pine Beetle Control Programs in Alberta, as has been provided to BC in the past; and to fund wildfire prevention and preparation programming in areas where Pine Beetle kill has or will occur as a result of this infestation.

## 2-30-18 Moving towards sustainable energy alternatives

*University--Rosedale*

Whereas Canada must transition industry, especially those in the resource sector, towards sustainable energy alternatives;

Be It Resolved that the NDP endorse an environmental policy that includes: - A first priority for funding to indigenous people for their own clean energy projects. - A high priority for funding for communities currently dealing with heavy health impacts of polluting industries. - A universal program to build energy efficient homes, and retrofit existing housing, ensuring that the lowest income communities and neighbourhoods will benefit first and receive job training and opportunities that reduce poverty over the long term. - A set of retraining programs and other resources for workers in carbon-intensive jobs, ensuring they are fully able to take part in the clean energy economy.

## 2-31-18 Resolution on the use of geothermal as an energy source for heating federal buildings

*Québec*

WHEREAS it is imperative that the Government of Canada adopt concrete measures to promote the use of renewable energy, such as geothermal, to heat and cool its buildings; WHEREAS it is unacceptable for the Government of Canada to use fossil fuels to heat and cool its buildings;

BE IT RESOLVED THAT the NDP adopt a policy requiring the use of geothermal for all new federal building construction. BE IT FURTHER RESOLVED THAT the NDP adopt a policy for the progressive conversion to geothermal of federal buildings whose heating and air conditioning are currently powered by fossil fuels.

## 2-32-18 Carbon Pricing

*Stormont--Dundas--South Glengarry*

Whereas, in accordance with recently established federal programs, most provincial governments have begun to implement carbon pricing. The current minimum carbon pricing is insufficient, and will prevent Canada from reaching its commitment of a 30 per cent reduction in greenhouse gas emissions by the year 2030. Not all communities are impacted equally, and not all communities will benefit equally from the transition to a green, sustainable future. The shift to a green economy must be fair, inclusive, and recognize specific needs for communities most impacted by the transition. Industry exemptions are a leading cause for concern in the current Government's inadequate plan.

Be It Resolved Improving binding targets and clear standards to cut greenhouse gas emissions, in accordance with international commitments, to promote Canada as a leader in a globally sustainable future. Carefully expanding and regulating the revenue-generating carbon market to ensure industry reduces greenhouse gas emissions to targets set by government, with no exemptions for specific industry sectors or jurisdictions. Provide funding through a portion of all carbon revenues to Provinces and Territories most affected by the transition away from heavy pollution industry, specifically fossil fuels. Imposing strict energy efficiency and emissions standards for motor vehicles, appliances, and buildings.

## 2-33-18 Unifying Principle and Policy Framework of “Sustainability”

*Peterborough--Kawartha*

WHEREAS the voting public has a perception of Conservative Party principles as being fiscally and socially “conservative”, Liberal Party principles as being fiscally and socially “liberal”, and Green Party principles as being environmentally focused, there is no clear unified public perception of New Democratic Party principles. We are credited with Universal Medicare but, beyond that, NDP policies seem to respond to specific needs in a scatter-gun approach that does not appear to be part of a clearly defined framework offering a coherent platform to the general public;

WHEREAS climate change will be a very disruptive force affecting all aspects of life for Canadians for decades to come - health, agriculture, refugees, extreme weather events, species loss, labour markets, among others - impinging on all NDP policies;

WHEREAS “sustainability” is characterized by the integration of the four pillars - economic, social, cultural and environmental - in such a way as to ensure communities can build prosperity, well-being and an environmentally sound future in the face of climate change;

WHEREAS “sustainability” is consistent with the NDP core principles of Democracy, Equality and Sustainability provided that “sustainability” includes the interdependence of the four pillars above;

Modifies 2.6, Building a Clean and Sustainable Canada,” Towards a Green and Sustainable Canada”

THEREFORE, BE IT RESOLVED THAT the New Democratic Party of Canada, within its social democratic mandate, adapt the core value of “Sustainability” as the unifying public Principle and Policy Framework guiding the revision of existing policies and development of new policies, party actions, and election campaign platforms; and

BE IT RESOLVED THAT a Policy Sub-committee of the Federal Party be struck with the mandate of re-drafting the updated policy manual to reflect the unifying Principle and Policy Framework of “Sustainability” within twelve months. Members of that committee should have representation of economic, social, cultural and environmental expertise to ensure the development of a quadruple bottom-line accounting for all “sustainable” policies and actions.

BE IT FURTHER RESOLVED THAT staff, party members and MPs are required to integrate “Sustainability” as a unifying Principle and Policy Framework in NDP education, policies, actions, and campaigns from this convention onwards.

## 2-34-18 Hydro-Electricity

*Toronto--St. Paul's*

Whereas continued dependence on oil is problematic for economic and environmental reasons;

Whereas Canada possesses vast hydro-electric power in Quebec, Labrador, and Manitoba, which is far more sustainable than other forms of energy;

Whereas Ontario represents an internal Canadian market for such hydro-electric energy;

And whereas current plans to route hydro-electric transmission from Labrador to the North Eastern United States is not in the best interests of Canada;

Be it resolved that the Canadian Federal Government examine options to build hydro-electric transmission lines from Manitoba, Quebec, and Labrador, into Ontario in consultation with the relevant provincial governments and First Nations.

## 2-35-18 Equitable Energy Policy for Seven Generations

*Esquimalt--Saanich--Sooke*

Whereas First Nations understanding of sustainability is grounded in the concept of seven generations and the concept that their territory is borrowed from future generations and;

Whereas non-renewable resources in Canada must be shared with our next seven generations;

Be it resolved that Canada develop an equitable energy policy for non-renewable resources, ensuring a fair and equitable energy transition for the next three centuries, for the next seven generations of Canadians.

## 2-36-18 Trans Canada Trail Act

*Waterloo, Guelph*

Whereas the Trudeau government has prematurely and misleadingly declared the Trans Canada Trail (also known as The Great Trail) to be complete;

Whereas "achieving" this goal in time for Canada 150 was made possible only by declaring 8,500 kilometres of roads and highways, 5,000 kilometres of ATV trails and 7,000 kilometres of waterways (including Lake Superior) to be "trails";

Be it resolved that an NDP Government would adopt a Trans Canada Trail Act that imposes minimum safety standards for all segments of the Trans Canada Trail (also known as The Great Trail);

Be it further resolved that an NDP government would commit the resources necessary to actually complete the trail so that it can be safely used by hikers, cyclists and other non-motorized trail users in all segments, from the Pacific to the Atlantic.

## 2-37-18 Supporting Waterfront Toronto

*Spadina--Fort York*

WHEREAS the renewal of Toronto's waterfront has created tens of thousands of jobs, a magnet for local and international visitors and a series of new public places, parks and recreational areas; WHEREAS Toronto's waterfront continued success as an economic engine for the Greater Toronto and Hamilton Area depends on continued investment in public infrastructure and public spaces, as well as keeping the balance between different uses;

BE IT RESOLVED that an NDP-led or supported federal government provides long-term and predictable funding for Waterfront Toronto, and the expansion and renewal of waterfront transit infrastructure including the Waterfront LRT and the re-building of the Jack Layton Ferry Terminal; and upholds the jet ban at the Island Airport and reforms the Toronto Port Authority into a community-focused entity to secure the future of Toronto's waterfront, in consultation with the Mississaugas of the New Credit.

## 2-38-18 Orphan Well Reclamation

*AFL- Alberta Federation of Labour*

Whereas a program designed to deal with orphan wells could help employ tens of thousands of workers. Whereas such a program would have a dual purpose of creating employment and helping the environment.

Be it resolved that the NDP call on the Government of Canada work with provincial governments to move forward with a plan to deal with orphan well reclamation paid for by industry. Be it further resolved that any orphan well reclamation program address the looming environment crisis and have the explicit goal of re-employing workers who have lost their jobs in the industry.

## 2-39-18 Researching Sustainable Development

*Stormont--Dundas--South Glengarry*

The environmental impacts of overpopulation and unsustainable development are still not widely known.

That an NDP Government would commit to researching and responding to the findings of an inquiry into sustainable development in our communities.

## 2-40-18 Environmental compensation program for farmers

*Saint-Hyacinthe--Bagot*

Whereas • riparian buffers in agricultural settings reduce water pollution, stabilize shorelines and beautify the landscape and, when wooded, reduce global warming, become wildlife habitats and benefit aquatic life and biodiversity; • the costs to farmers are excessive, while society as a whole benefits;

It is therefore proposed that the following paragraph be added after the current paragraph d of Policy 1.9, Agriculture and fisheries: Creating a program of environmental financial compensation paid to farmers and owners of riverfront property for work on shorelines of watercourses intended for environmental protection that surpasses the requirements of the existing regulations to recognize the participants' contributions to society in addressing the pollution of our rivers. Such compensation shall at least cover the costs of setting up, maintaining and losing productive land over a minimum of three metres above the embankment. This width may be greater than three metres depending on the protection needs identified by recognized professionals.

## 2-41-18 Transformational change in favour of a sustainable economy

*University--Rosedale*

Whereas that the NDP recognizes that the LEAP Manifesto has sparked a vital debate about how to achieve a just and sustainable future for all Canadians;

Be it resolved that NDP policy direction on the environment and all issues is determined by NDP members through local riding associations and the national convention process;  
Be it further resolved that the NDP will continue to work for transformational change in favour of a sustainable economy at all levels in the party leading up to the 2019 election;  
Be it further resolved that the NDP recommits to fighting inequality and the climate crisis with bold social-democratic initiatives that respond to the needs of Indigenous peoples, workers and diverse communities all across the country.

## 2-42-18 \$80 National Carbon Tax

*Papineau*

Whereas it is important for Canada to meet its environmental commitments;

BE IT FURTHER RESOLVED THAT

It is proposed that paragraph 2.3(b) of the NDP Policy Book be replaced with the following wording: "In keeping with Canada's ratification of the Paris Agreement on climate change, implementing a national carbon tax of \$80 per tonne by 2025."

## 2-43-18 Just Transition for Coal Workers

*Edmonton Manning, AFL- Alberta Federation of Labour*

Whereas Canada has announced a coal power phase-out by 2030. Whereas this industry provides thousands of good paying careers. Whereas one group of workers shouldn't shoulder the burden to address societal issues (i.e. climate change). Whereas securing the support of working people is the only way climate policies will succeed.

Be it resolved that the NDP call on the Government of Canada to support the Government of Alberta's comprehensive plan for a Just Transition for Coal Workers in their province. Be it further resolved that the NDP call on the Government of Canada to implement a comprehensive Just Transition strategy for workers in the coal power industry across Canada. Be it further resolved that the NDP call on the Government of Canada to ensure a Just Transition strategy is in place for any workers impacted by climate change policies.

## 2-44-18 Mobilizing around Climate Justice

*Richmond Centre, Winnipeg Centre, Courtenay--Alberni, Etobicoke North, Toronto Centre, Scarborough Southwest, Saskatoon--University, Beaches--East York, Don Valley East, Prince Albert*

WHEREAS implementing our leader's goal to see Canada reduce its greenhouse gas emissions to 30% of 2005 levels by 2025—five years earlier than the Liberals aim for—requires the active participation of New Democrats in the Climate Justice movement;

BE IT RESOLVED that the Party leadership mobilize its rank and file through the Electoral District Associations to participate in actions of solidarity with pipeline, fracking and climate justice protests across the country.

## 2-45-18 Against the Trans Mountain Pipeline

*Saanich--Gulf Islands, Richmond Centre, South Surrey--White Rock, Courtenay--Alberni, Etobicoke North, Toronto Centre, Toronto--Danforth, Scarborough Southwest, Saskatoon--University, Beaches--East York, Vancouver Granville, Prince Albert*

Whereas gas and oil pipeline projects deny respect for Indigenous peoples, breach federal NDP climate goals and threaten existing jobs in British Columbia and Alberta while creating few local jobs;

Be it resolved that this Convention express solidarity with and support for the Indigenous communities, municipalities, forest, fishing and tourism industry workers and the British Columbia Government in defending jobs, the environment and health and safety against the Trans Mountain Pipeline and its inevitable destructive impact;

Be it further resolved that the federal NDP support the present Alberta Government's efforts to transition away from the waning carbon industry to a green, prosperous, climate-friendly future through government intervention and investment in eco-tech research and development, massive clean-energy job-creation and support for workers transitioning out of the petro-sector without leaving a single oil worker jobless.

## 2-46-18 Endorse the Vision of Leap

*Richmond Centre, Courtenay--Alberni, Etobicoke North, Toronto Centre, Scarborough Southwest, Don Valley East, Prince Albert, Thornhill*

WHEREAS the Leap Manifesto contains an overarching vision of climate justice that has united, in an unparalleled way, the country's most impressive civil society organizations including Indigenous groups, the labour movement, social justice and environmental groups;

BE IT RESOLVED that the New Democratic Party supports the broader social change community in its efforts to win climate justice by promoting the vision contained in the Leap Manifesto in all its future electoral endeavours.

## 2-47-18 Fighting Climate Change

*Peterborough--Kawartha*

Whereas climate change is due simply to production of far more CO<sub>2</sub> (and other greenhouse gases) than the world's vegetation could possibly assimilate; and Whereas to stop climate change Canada must get its production of CO<sub>2</sub> down from 555 million tonnes annually (2015) to the level that the world's vegetation can assimilate, Canada's share of which, based on population, is 42 million tonnes of CO<sub>2</sub> annually, a 92% reduction; and

Whereas if we are to take our part in saving the world from doom, we must get off fossil fuels and on to sustainable electricity with wartime effort and speed;

Therefore be it resolved that the federal New Democratic Party, whether elected or not, make public the facts concerning climate change, particularly our current emissions (555 million tonnes annually) and how large they are in comparison with nature's ability to assimilate them (42 million tonnes of CO<sub>2</sub> annually); and Be it further resolved that the federal New Democratic Party push for the inclusion of emissions from wars, from "defence", shipping, aircraft, end-use and forest fires in international data; and

Be it further resolved that the federal New Democratic party push the Trudeau government to initiate immediately a breakneck programme with wartime effort and speed to eliminate the use of fossil fuels in cars, buses, trucks and trains, home and industrial heating and the generation of electricity.

Be it further resolved that a federal New Democratic government will either continue or initiate such a programme.

## 2-48-18 Ensuring the transition to clean and renewable energy sources

*Québec*

BE IT RESOLVED THAT an NDP government:

- will fund the rollout of a federal system of charging stations through a tax on the sale of gas-powered vehicles;
- will develop a federal strategy for transporting commodities using clean energy sources (without polluting emissions);
- will prohibit the sale of new internal combustion vehicles from 2040 onward.

BE IT FURTHER RESOLVED that the NDP call for

- the emissions standard for new motor vehicles to be reduced to zero by 2040;
- the federal government and federal Crown corporations to purchase only vehicles that do not produce polluting emissions and completely discontinue the purchasing of vehicles with internal combustion engines as of 2025.

## 2-49-18 Meeting Canada's Climate Goals through Energy Democracy

*Ottawa--Vanier*

Whereas the Paris goal of carbon neutrality by 2050 requires a significant shift to renewable forms of electricity delivered via distributed power systems; and Whereas Canada's centralized power system is now in need of massive refurbishment; and Whereas the NDP wishes to promote increased Energy Democracy in Canada through local investment in and ownership of renewable energy;

Be it resolved that the NDP will add the following to Section 2.3 (Climate Change) of the Policy Book: • Implement a national 30-year renewable energy plan to achieve carbon neutrality and 100% renewable electricity in Canada by 2050. • Include in this plan a commitment to procure 100% of electricity and heating energy used by federal facilities from community and First Nations owned renewable energy sources by 2025. • Establish a Smart Grid Infrastructure Fund to assist municipalities in transforming their local distribution systems into semi-autonomous micro grids and work with provinces and territories to update power sector regulations to foster this change. • Promote energy democracy by supporting community investment, ownership, production, and control of renewable energy through tax credits and other incentives.

## 2-50-18 Rapid Conversion to Renewable, Green Energy

*Niagara Centre, Etobicoke North, Toronto Centre, Toronto--Danforth, Thornhill, Mount Royal*

Whereas the big drop in the price of oil presents a golden opportunity to oppose pipeline construction, to re-tool, and to go for green energy conversion (wind, hydro, wave energy, solar, geothermal and biomass); therefore

Be it resolved that the NDP actively campaign in opposition to all new pipeline construction, and for a rapid conversion to renewable, green energy systems while fully respecting indigenous peoples' rights.

## 2-51-18 Combatting Climate Change

*Vancouver Kingsway, Vancouver Kingsway*

Be it resolved that Section 2.3.a. in the policy book be amended to read: Obtaining 100% of Canada's electricity from renewable sources by 2040 and returning to pre-industrial carbon emission levels by 2050 or sooner; b. Rejecting new infrastructure that locks us into increased carbon emissions; c. Our trade policies taking the above climate goals into consideration. Be it further resolved that the current item 2.3.b. be deleted.

## 2-52-18 Canada's Clean Energy Future

*Burnaby South*

BE IT RESOLVED that the Federal NDP stand in solidarity with First Nations, municipalities, Non-Governmental Organizations, the Province of British Columbia, and local residents in opposing Kinder Morgan's proposed Trans Mountain pipeline expansion as this new bitumen-based, export only pipeline undermines reconciliation with Indigenous Peoples, hinders our emission and climate goals, and brings increased risk to our local economies.

BE IT FURTHER RESOLVED that the Federal NDP research and bring forward a National Clean Energy Strategy which respects and includes Indigenous partners and guides Canada toward meeting our international climate change commitments.

## 2-53-18 Combatting climate change

*Québec*

WHEREAS Canada and Quebec are now experiencing the most serious ecological crisis in their history; WHEREAS United Nations (UN) Secretary-General Ban Ki-moon has urged every country to set more ambitious climate policy goals; WHEREAS the Liberal government has not yet set any such goals; WHEREAS the Liberal government has approved, or has not yet made decisions on, a number of oil, gas and mining projects; WHEREAS the Liberal government has promised to invest significant amounts in the field of infrastructure;

BE IT RESOLVED that the NDP: - set a target of a 34% reduction in GHG emissions below 1990 levels by 2025 and 80% below 2005 levels by 2050. - oppose all new oil pipeline and oil and gas infrastructure projects. - support a universal grant program for the construction of infrastructures and eco energy homes and the renovation of existing infrastructures and homes. - support the cancellation of any subsidies or tax breaks for the development and use of non-renewable energy. - support the adoption of a national carbon tax or a national cap-and-trade program. - take a clear and strong position against the Energy East project.

## 2-54-18 LEAP Manifesto 3

*Oshawa*

WHERE AS The Truth and Reconciliation Commission has acknowledged shocking details about the violence of Canada's near past. Deepening poverty and inequality are a scar on the country's present. And Canada's record on climate change is a crime against humanity's future. WHERE AS We could live in a country powered entirely by renewable energy, woven together by accessible public transit, in which the jobs and opportunities of this transition are designed to systematically eliminate racial and gender inequality. \*\*\*Whereas (Suite) Caring for one another and caring for the planet could be the economy's fastest growing sectors. Many more people could have higher wage jobs with fewer work hours, leaving us ample time to enjoy our loved ones and flourish in our communities.

THEREFORE BE IT RESOLVED We call for a Canada based on caring for each other and the planet, moving swiftly to a post-carbon future, upholding Indigenous rights, and pursuing economic justice for all, AND the Federal NDP support the building of community support of the LEAP Manifesto.

## 2-55-18 Suspension of Site C Dam Construction

*Etobicoke North*

Whereas the proposed 60 meter high dam project at Site C on the Peace River will flood over 12,000 hectares of high quality agricultural land between Fort St. John and Hudson's Hope by creating an 83 kilometer long reservoir, while preempting the Agricultural Land Reserve status of the land; And whereas the construction of Site C dam will destroy a major heritage site and countless First Nations' burial grounds, as well as hunting, gathering, and trapping areas on their recognized traditional territories; And whereas the principles of the United Nations' Declaration on the Rights of Indigenous peoples have not been upheld;

Whereas, as noted in Jagmeet Singh's leadership platform, many trans and non-binary Canadians face great difficulty changing the gender marker on their official identification;

Whereas, as noted in Jagmeet Singh's leadership platform, displaying gender on ID and collecting individual-specific data on gender is a remnant of a time when important rights, such as property ownership and voting, were gender-dependent;

### 3-30-18 Resolution on guaranteed minimum income

*Outremont*

WHEREAS Canada’s great wealth is not distributed in a way that eliminates the persistent scourge of poverty and a number of initiatives intended to combat it have failed;

BE IT RESOLVED THAT the NDP establish a Federal Council working committee to fully explore the advantages and disadvantages of a guaranteed minimum income program. BE IT FURTHER RESOLVED that this committee provide a detailed report on the issue by January 1, 2019. Such a program could become part of our platform for the 2019 general election if the committee were to conclude that such a policy could enhance quality of life in Canada and minimize the phenomenon of poverty. ### 3-32-18 Mental Health under Canada's Healthcare Plan

*Vancouver Quadra*

Under Canada's Healthcare Plan Canada's Healthcare Plan generally neither mentions nor includes coverage of mental health for Canadian citizens and residents. Canadians' mental health may be covered in a hospital or mental institution, or, after referral by a regular doctor, by a psychiatrist. But outpatients generally have no direct access to the healthcare system for mental health care, nor—once they leave hospital—do they have public access to publicly-funded pharmaceuticals. There is considerable inequity among Canadians seeking quality mental health/illness prevention, care, and treatment. That inequity matters, as mental health and wellbeing may deteriorate in cases where sickness goes undiagnosed, or where assistance is inaccessible and/or beyond patients' financial means. Physical and community conditions may negatively affect mental health, among them people living with disabilities, diseases and deteriorating health. A wide range of environmental factors, homelessness, inadequate local health care services, the care of dependents, post-natal depression, PTSD resulting from severe trauma, these and other factors must be considered and treated in a national mental health policy worthy of the name.

Be It Resolved that the Federal NDP:

1. Insist that comprehensive mental health care be covered under Canada's Healthcare Plan.
2. Assemble information and documents about mental health coverage in Canadian provinces and territories, and make such information accessible to Canadians by collaborating with individual provinces and territories;
3. Work with professionals in various mental health fields to educate the public about prevention, assistance, and care in its many forms.

### 3-34-18 Campaigning for a National Dental Care Plan

### 3-35-18 Investing in Mental Healthcare

*Battlefords--Lloydminster*

Whereas mental healthcare is woefully under-funded across Canada and treated in a different way from other forms of healthcare which allows people with serious mental health challenges to go without appropriate counselling, community supports, and healthcare. And whereas northern Saskatchewan continues to face an epidemic of suicides among Indigenous youth.

Be It Resolved that the NDP supports broad-based public investments in mental healthcare, through Federal funding to ensure that access to mental healthcare is available across Canada and with particular attention to northern and remote regions. This funding should ensure that Canadians have timely, appropriate, and publicly-funded access to health care in the same way that healthcare is available for physical ailments.

### 3-36-18 Harm Reduction

*Notre-Dame-de-Grâce--Westmount*

WHEREAS illicit drug use and harmful use of legal drugs is a multi-faceted phenomenon in Canada that can be a result of trauma, poverty, discrimination or social inequality. WHEREAS full abstinence from drugs is not a pragmatic solution for all users including some users in crisis.

BE IT RESOLVED THAT an NDP government commit to undertaking research, analysis, advocacy and strengthening the capacity of civil society to engage in harm reduction and drug reform initiatives. BE IT FURTHER RESOLVED THAT an NDP government will implement measures to reduce the harms resulting from policies relating to the use of illicit drugs and harmful uses of legal drugs, using a non-judgemental approach.

### 3-37-18 Trans Health Services

*Guelph, Ottawa South, Ottawa West--Nepean, Leeds--Grenville--Thousand Islands and Rideau Lakes, Selkirk--Interlake--Eastman, Ottawa Centre, Pickering--Uxbridge, Orléans, New Democratic Youth of Canada , UONDP*

“WHEREAS despite the passage of Bill C-16, transgender people in many jurisdictions still face unnecessary gatekeeping in access to necessary health services; WHEREAS receiving medical treatments such as hormone replacement therapy (HRT) and gender confirmation surgery (GRS) in a timely and respectful fashion is life-saving to many transgender people;

BE IT RESOLVED THAT the following clauses be added to Section 6.3 of the Policy Book:

J. Including coverage of medications used in HRT, as well as GRS, mastectomy, and permanent hair removal in any Pharmacare plan proposed by an NDP government;;

*Guelph, Ottawa South, Fredericton, Leeds--Grenville--Thousand Islands and Rideau Lakes, Selkirk--Interlake--Eastman, Pickering--Uxbridge, Orléans, New Democratic Youth of Canada, Ottawa--Vanier, UONDP*

### 3-39-18 Universal Dental Care

*Vancouver East, Vancouver Kingsway*

Whereas oral health is a critical part of the overall health of every Canadian; And Whereas millions of Canadians lack insurance coverage and cannot afford to pay for medically necessary dental procedures;

Be it resolved that the NDP advocate for the addition of universal coverage for all medically necessary dental care to Canada’s public health care system.

### 3-40-18 Including Pharmaceuticals under Canada's Health Care plan

*Vancouver Quadra*

Under Canada’s Health Care Act, inpatients’ pharmaceuticals are covered. Yet there is significant variation in coverage from province to province for patients discharged to the community (for instance, after day surgery). The need to modernize coverage was pointed out in 2002 by the Romanow Commission and the Kirby committee of the Canadian Senate. <sup>1</sup>

Prescription drugs are increasingly expensive and thus inaccessible to many Canadians otherwise covered by Medicare. Besides, drug prices vary from province to province means there is inequity between provinces. Our universal health care plan is thus not “universal.” Although the plan provides basic coverage, the cost of prescription drugs makes our healthcare neither universal nor affordable for an increasing number of Canadian residents dependent on prescription drugs for their health and well-being.

Be it Resolved that: 1. The Federal NDP continue to strongly encourage the inclusion of pharmaceuticals under Canada’s Health Care plan by: (a) Insisting that the Federal Government include pharmaceutical coverage under Canada’s Healthcare Plan; (b) Continuing to speak with individuals and groups across Canada to acquire information and to get support to extend Canada’s healthcare coverage to include prescription drugs under the national health care plan; (c) Presenting private members’ bills in Parliament on this matter, along with pertinent evidence, and advertising it broadly; (d) Working closely with our provincial associations and elected NDP members at every level to highlight problems of pharmaceutical coverage, equality, and affordability for every Canadian.

Be it resolved as well that: 2. The Federal NDP continue to press the Federal Government and the Ministry of Health to support the domestic manufacture and purchase of additional numbers of generic drugs, thus reducing costs to governments and consumers alike.

### 3-41-18 HIV Decriminalization

*Ottawa South, Leeds--Grenville--Thousand Islands and Rideau Lakes, Ottawa Centre, Orléans, New Democratic Youth of Canada , UONDP*

WHEREAS HIV-positive people often face stigma, discrimination, and violence if they disclose their status; WHEREAS HIV-positive people are frequently jailed for consensual sex with reasonable measures to prevent transmission for failing to disclose their status; WHEREAS a criminalized approach to HIV transmission is senselessly punitive and harmful to public-health measures;

BE IT RESOLVED THAT the following clauses be added to section 3.8 of the Policy Book:

J. Establishing new guidelines on HIV non-disclosure that centre public health and harm reduction in place of needless criminalization, and encouraging provincial counterparts to comply with these guidelines;

K. Establishing a mechanism to automatically pardon and compensate all individuals with criminal records for failure to disclose HIV positive status when reasonable measures to prevent transmission have been taken.

### 3-42-18 Public Assisted Living Facilities for Canadian's with Mental Health Issues

*Parkdale--High Park*

Whereas the lack of appropriate housing for Canadians with mental health issues often leads to either homelessness or people being placed in standard rental housing where they are, in reality, often isolated and otherwise under-served,

Whereas many scientific studies have demonstrated significant deviation from the norm of optimal driving skill, at blood alcohol levels over .05 (including impaired judgment, lowered alertness, reduced coordination, reduced ability to track moving objects, difficulty steering, and reduced response to emergency driving situations);

Whereas researchers at the University of Chicago have estimated that lowering the legal limit for blood alcohol content to .05 would save 1800 American lives each year; Whereas the American National Transportation Safety Board (NTSB) has recommended since 2013 that states lower the legal blood alcohol concentration (BAC) level while driving from .08 to .05 or lower;

## 3-79-18 Basic Income Guarantee & PEI Pilot Project

*Charlottetown*

Whereas these positive results have been reflected in similar projects in other jurisdictions, and

Whereas a Basic Income Guarantee is in keeping with the basic principles of the New Democratic Party and its quest for social justice, and

Whereas the Legislative Assembly of the Province of Prince Edward Island has formally requested that the government of Canada join with it in conducting a pilot project using a Basic Income Guarantee throughout the province of Prince Edward Island

*Charlottetown*

Whereas the vast majority of Canada's transportation infrastructure – and, in particular, its highways and bridges – are financed from general government tax revenues rather than through tolls or user fees, and  
Whereas the use of highway and bridge tolls and/or user fees create barriers to the equal use of, and access to, public facilities, and  
Whereas the Confederation Bridge forms a key transportation link between Prince Edward Island and the rest of North America, and  
Whereas the current tolls on the Confederation Bridge create additional costs for most of the goods coming to or leaving Prince Edward Island, thus increasing the cost of living for all individuals and families residing in Prince Edward Island, while also putting any goods produced in Prince Edward Island and transported by road at a cost disadvantage when compared to similar goods produced elsewhere, and  
Whereas the current tolls on the Confederation Bridge create additional costs for both residents of P.E.I. who travel by road to other parts of North America and those residents of North America who travel to Prince Edward Island for business or pleasure,

## 1-37-18 Regulation of Sharing Economy Corporations

*Beaches--East York*

Whereas the so-called sharing economy isn't about sharing at all, but rather about undermining the regulatory environment, decreasing unionization and reducing wages and avoiding taxes; Whereas the growth of AirBnB is destabilizing neighbourhoods by creating "ghost hotels" and driving up rents by taking critical rental stock out of the market;

Therefore be it resolved that the NDP supports the regulation of so-called sharing economy corporations to ensure regulatory compliance, in the interest of protecting workers rights, good jobs, affordable housing and fair taxation.

## 1-38-18 Offshore Tax Havens

*Coquitlam--Port Coquitlam*

BECAUSE Canada has tax treaties with several countries known to be tax havens, allowing people to park wealth in those regions, paying little to no tax, then allowing them to return that money to Canada, without paying Canadian taxes; and BECAUSE the "Paradise Papers" leak of offshore tax haven documents suggests Canada is losing much more money to offshore tax havens than previously estimated. There was \$261 billion of Canadian wealth stashed in the top 10 most popular tax havens at the end of 2016; and BECAUSE "Canadians for Tax Fairness" estimates that Canada's government loses between \$10 billion and \$15 billion annually due to corporate tax dodging using tax havens; and BECAUSE while the use of offshore accounts is not itself illegal, they're are often tied to illegal activities, including failure to report income;

THE NDP WILL demand that the Federal Liberal Government introduce legislation closing the loopholes in Canada's tax laws. Certain countries have passed "economic substance" laws that require a business to prove that a subsidiary is more than a tax shelter, by providing evidence that it has staff and activity. Such a law would allow Canada to recover up to \$400 million in tax revenue every year; and THE NDP WILL demand that The Canada Revenue Agency should immediately begin the work to assess the tax gap from tax havens use and report fully to Canadians; and THE NDP WILL demand that the Federal Liberal Government should commit to renegotiating tax treaties that allow corporations to shift profits and then repatriate that money — untaxed — putting a reasonable floor on tax payments; and THE NDP WILL demand that The Minister of Revenue should present Canadians with a clear action plan to investigate and prosecute corporate tax dodging that involves the use of tax havens.

## 1-39-18 National Wood Manufacturing Strategy

*University--Rosedale*

Whereas the Softwood Lumber Agreement continues to be in dispute and we are without a resolution;  
And whereas there have been over 100 wood-processing facilities closed in B.C. since 2001;  
And whereas value-added remanufacture of domestic wood creates five times as many jobs as simple harvest and export;

Be It Resolved that the NDP will work with the Liberal government to create a National Wood Manufacturing Strategy, which would address the following key policy initiatives: - a reduction in raw log exports - public investment in mill manufacturing technology - just transition initiatives for workers who are losing their jobs as the pulp and paper industry continues to decline - a national jobs protections office to work with industry to keep jobs in Canada - protect working forests in order to provide sustainable jobs for years to come

## 1-40-18 Ending Tax Evasion and Tax Avoidance

*Toronto Centre*

WHEREAS the federal government is losing about \$10-15 Billion a year in revenue from offshore tax havens alone, not to mention billions more lost due to tax loopholes and gifts to the rich;

BE IT RESOLVED 1) that the NDP actively campaign for the imposition of severe penalties against tax evasion to include confiscation of untaxed profits, seizure of assets of equivalent value held by tax outlaws, along with jail time for the culprits and their accomplices.

## 1-41-18 Towards a 32 Hour Work Week

*Beaches--East York*

Whereas the Canadian work week is among the longest in the industrialized world, a situation proven to cause increased stress, illness and lower productivity; And whereas tens of thousands of new jobs would be created if the work week was reduced appropriately;

Therefore be it resolved that the NDP actively campaign to reduce the work week throughout Canada to 32 hours, without loss of pay or benefits to workers, and to outlaw mandatory overtime.

## 1-42-18 Income Inequality & LICO

*Orléans*

## 1-43-18 Elimination of offshore tax havens

*Beaches--East York*

WHEREAS Canada suffers from a \$47 billion tax gap - Tax revenue that should be collected but isn't.

WHEREAS the top 60 public companies in Canada use 1,000 tax haven subsidiaries to avoid paying taxes, resulting in \$15 billion in lost tax revenue.

BIRT Section 1.7 of the policy book be amended to read:

d Renegotiating and eliminating international tax treaties with foreign governments that act as tax havens;

e Working towards the elimination of offshore tax havens;

## 1-44-18 Small Sustainable Farms

*Toronto--St. Paul's*

Be it resolved that policies around food inspection and on farm inspection be adapted to support farmers of 100 acres or less.

## 1-45-18 Implement Social Ownership

*Beaches--East York*

Whereas large corporations and financial institutions are undemocratic and hierarchical, seeking profits and power over and above the interests of citizens and the environment; And whereas social ownership is a necessary precondition for democratic control of the economy, full employment and an equitable distribution of income and power; And whereas workers' control would contribute greatly to economic justice, greater efficiencies, and most importantly, improve the quality of life of working people and our allies;

Therefore Be It Resolved that the NDP is committed to actively campaign for and implement social ownership, including but not limited to the following industries: banking, manufacturing, communications, energy, health care, insurance, medical drugs, natural resources, and mass transportation;

Therefore Be It Further Resolved that these industries be democratically controlled and managed by their workers, by instituting direct election of plant managers and enterprise directors, with the right of recall by their electors, and integrate significant and meaningful consumer participation in the decision-making process.

## 1-46-18 Restructuring the Canada Infrastructure Bank

*Fredericton, New Democratic Youth of Canada*

WHEREAS the Trudeau government has broken its promise and has turned the Canadian Infrastructure Bank to a privatization bank designed to sell off our public infrastructure,

WHEREAS New Democrats believe in keeping our infrastructure public and also using a public infrastructure bank to finance infrastructure projects at rock-bottom interest rates to create jobs and grow the economy,

BE IT RESOLVED that section 1.8 of the Policy Book be amended to add the following clause;

H. Restructuring the Canada Infrastructure Bank to a wholly public model of investment.

## 1-47-18 Defined benefit pensions vs target pensions

*Niagara Centre*

Be it resolved that the following clauses be added to Section 1.12 of the policy book: New Democrats believe in: k Defined benefit pensions for risk-free retirement security. l Opposing implementation of pension plans which shift risk from employers to employees/pensioners, such as target pensions.

## 1-48-18 Public Ownership of Hamilton Works - U.S. Steel Canada

*Beaches--East York*

Whereas U.S. Steel locked out Local 1005 of the United Steelworkers and forced steelworkers to accept an inferior Pension Plan for all new hires and to put an end to indexing of pensions for present retirees. And whereas U.S. Steel reneged on commitments for production and employment levels it made when it took over the former Steel Company of Canada, Stelco, in 2007.

Therefore Be It Resolved that the Hamilton Works-U.S. Steel Canada be put into public ownership, under workers' and community democratic control, and that the Canada Pension Plan divest itself of all U.S. Steel shares it holds, and instead serve as the vehicle for this purchase of U.S. Steel at no more than the price of \$1.2 Billion for which it was sold in 2007.

## 1-49-18 Port of Churchill and Connecting Rail Line

*Dauphin--Swan River--Neepawa*

Whereas Omnitrax has shut down the rail line to Churchill and the grain handling facilities at the port of Churchill, and

Whereas the Harper government's arbitrary removal of the CWB single desk selling system has cost farmers billions of dollars and also resulted in the ending of grain shipments to Churchill, and

Whereas a rail line to Churchill is essential for tourism and the supply of goods and services to that region of Canada, and

Whereas shipping grain by rail to Churchill is the lowest cost to any Canadian port and greatly reduces CO2 emissions. Similarly, the flying in of goods to Churchill greatly contributes to increased CO2 emissions.

Therefore be it resolved that the New Democratic Party of Canada call for and actively promote public ownership of the rail line to Churchill and the port facilities at Churchill by the government of Canada, and

Therefore be it further resolved that the New Democratic Party of Canada calls for the reinstatement of the Canadian Wheat Board single desk selling system for wheat and barley, which will provide the needed traffic to have a financially viable rail line to Churchill.

## 1-50-18 Expanding Public Ownership

*Etobicoke--Lakeshore, Guelph, Ottawa South, Fredericton, Leeds--Grenville--Thousand Islands and Rideau Lakes, Ottawa Centre, Pickering--Uxbridge, Orléans, Ottawa--Vanier, UONDP*

WHEREAS the NDP was founded with the goal of affecting fundamental change in Canada; WHEREAS economic decision making is unfairly concentrated in the hands of multinational corporations; WHEREAS the creation of a just society must involve a fair distribution of economic power;

BIRT the following clause be added to Section 1.10 of the Policy Book: ‘f. Expanding public ownership within the economy for the benefit of Canadians.’”

## 1-51-18 Resolution on Canada Post renewal

## 1-53-18 Measures of Economic Growth Study

*Toronto--Danforth*

Whereas increases in measures of economic growth such as GDP or stock market valuations correlate poorly with improvements in social outcomes; and Whereas the Canadian economy is sufficiently productive to provide for a reasonable minimum standard of living for all Canadians, if appropriate redistribute mechanisms of the kind long championed by the Party were applied;

Be it resolved that a committee be struck to: Identify qualitative and quantitative metrics that strongly correlate to changes in the social welfare, health and security of all Canadians; Examine the policy implications and political consequences of the replacement of references to measures of economic growth that have traditionally been used in Party platforms, policy documents and communications by references to metrics described above; and Prepare a report on these findings together with implementation recommendations for the 2020 party convention.

## 1-54-18 Investing in Full Employment

*Fredericton*

WHEREAS the policy of arbitrary balanced budgets which ignore the business cycle is damaging to jobs, wages and economic growth,

WHEREAS the NDP should pursue economic and fiscal policies which promote and maintain economic growth and full employment, which empower working people;

## 1-59-18 Omnitrax

*Charleswood--St. James--Assiniboia--Headingley*

Whereas, Omnitrax has miserably failed the people of Churchill, Manitoba and Canada by not repairing the rail line it owns from Thompson to Churchill;  
Whereas, this failure has caused a great deal of economic pain the residents of Churchill and other communities along that rail line;  
Whereas, the previous Liberal government-under Jean Chretien privatized the Canadian National Railways (CNR) and the previous Conservative government under Stephen Harper did away with the Canadian Wheat Board; Whereas, both these short-sighted decisions by previous Liberal and Conservative governments along with Omnitrax's failure to live up to its obligations as owner of the rail way and Port of Churchill are responsible for the present-day hardships being endured by the residents of northern Manitoba (Churchill and the other communities that are dependent on goods, foodstuffs, building materials and the like being delivered by rail);

Resolved, that the federal NDP urge the current Liberal government to place into public ownership the rail line to Churchill and the port of Churchill;  
Further resolved that if the situation remains as is when the NDP form federal government, the public ownership option be acted upon forthwith;

## 4-17-18 Agriculture & Fisheries

### *Essex*

Whereas in the U.S. if a produce buyer goes bankrupt, a grower or seller can rely on the deemed trust provision under the Perishable Agricultural Commodities Act (PACA) to ensure they receive payment. Canadian growers and sellers have no such protection; Whereas, the U.S. withdrew Canada preferred access to that PACA payment dispute arbitration mechanism due to Canada's lack of protection during bankruptcies. This means that instead of a small fee, companies must now post a double bond to access that protection; Whereas 75% of Canada 20,000 fruit and vegetable producers are small businesses; Whereas current rules severely limit the ability for produce growers and sellers to collect payment in the event their buyer declares bankruptcy and this has cost Canadian and U.S. firms operating in Canada on average \$19 million per year; Whereas a deemed trust would also meet U.S. requirements for a comparable Canadian system and would restore Canada's preferred access to PACA programs; Whereas, the need for a PACA-like trust in Canada has been endorsed by the Canadian Chamber of Commerce, the Canadian Federation of Independent Business, the Canadian Federation of Agriculture, the Association of Municipalities of Ontario and the Food Processors of Canada; and Whereas the NDP believes Canadian farmers must have access to cost-efficient business risk management programs;

Therefore, be it resolved that the NDP support the establishment of a limited statutory deemed trust that protects produce growers and sellers during bankruptcy in Canada and the re-establishment of Canada's preferential access to the protections under the United States Perishable Agricultural Commodities Act (PACA); and Be it further resolved that the trust would cover only accounts receivable, cash, and inventory of the buyer stemming from the sale of produce on short term transactions with payment terms not exceeding 30 days.

Therefore Be It Resolved that the NDP actively campaign in support of the demand of Palestinian unions, civil society and unions across Canada and around the world which call for Boycott, Divestment and Sanctions against the Israeli state until it dismantles the apartheid wall, allows refugees to return home, ends its demolition of Palestinian homes and olive groves, lifts the siege of Gaza, ends its occupation of Palestinian lands, and terminates its apartheid practices.

And whereas input from the membership into policy development is a vital aspect of the parties democracy that should not just occur once every 24 months;

## 7-26-18 Grassroots Participation

*Thornhill*

Whereas many political parties, and the NDP, owe their existence to grassroots movements. Whereas before they become laws or platform planks, the party's most transformative policies are generated and popularized by grassroots activism and organizing, usually outside the party. Whereas if it's the labour movement, feminist groups, Indigenous mobilizations, LGBTQ2 advocacy, environmental direct action or others, the NDP owes much to movements. Whereas the NDP's many political victories are the blossoms, but movements are the roots, and to keep it growing, the NDP must nourish the roots that it comes from. Whereas If the NDP can keep it roots healthy, it can extend its reach and resonance, and speed up positive transformations of our society and economy.

Be it resolved that the New Democratic Party will:

Mobilize its members between elections in support of non-electoral campaigns, including campaigns that are not lead by the NDP itself; Hold trainings (from online workshops to training camps) in a variety of skills for organizing and campaigning; Allow and encourage use of mailing lists to promote regional and local movement activity that broadly aligns with the party's platform; Sponsor speaking tours of grassroots activists, inviting its members and supporters into dialogue about cutting-edge issues; Recognizing that different currents of thought exist within the party, allow and encourage tendencies to form, so long as they respect some basic rules; and Commit resources to the equitable participation and political advancement of women, people of colour, LGBTQ2Q, Indigenous, disabled and otherwise vulnerable or stigmatized communities and peoples both within the NDP ranks and as part of all the activities listed above.

## 7-29-18 Campaign to Increase NDP Affiliates

*Beaches--East York, Hamilton Centre*

Whereas the NDP must restore and expand its links to the working class, including the unemployed, the under-employed, and the non-waged workers, and to the social protest movements that battle the depredations of globalized capitalism; And whereas NDP links to labour unions, including its receipt of their financial contributions, proudly distinguish the NDP, like its Cooperative Commonwealth Federation (CCF) predecessor, from the parties of big business as the democratic political expression of the workers' movement in this country;

Therefore Be It Resolved that the NDP actively campaign to increase union affiliation to the party and invite progressive social movements and groups of activist individuals to form clubs and to affiliate to the party. The party actively promotes the idea of an expanded movement of affiliates which would enjoy direct in-put to conventions and councils of the NDP, and which would constitute an expanded working class and activist base on which to build the party as an instrument for democratic socialist transformation of society.

## 7-30-18 Less Cost & More Debate for Conventions

*Beaches--East York*

Whereas substantially greater democracy and political pluralism are an urgent necessity within the NDP;

## 7-32-18 Encouraging Local Involvement

*Toronto--St. Paul's*

Whereas: In the course of 2015 The New Democratic Party ran a highly centralized national campaign one that failed to pivot effectively in the face of tactical and strategic challenges (most obviously on the issue of deficit spending).

Whereas: During the last federal election campaign the central administration of the NDP campaign sought in some ridings to actively infringe the right to free speech of both the riding association and the local campaign. Whereas: The NDP is the only national party that has as a matter of historical record countenanced genuinely free and open debate in pursuit of national political power.

Whereas: It is understood that national campaigns can benefit from communications generated at both the riding and the national level.

Be it resolved that: the New Democratic Party respects and encourages local participation and action as it relates to the crafting and drafting of specific messages aimed at the interests of local campaigns, provided that there is adherence to adopted party platform and policy.

## 7-33-18 Candidate Withdrawal Procedures

*Charleswood--St. James--Assiniboia--Headingley*

Whereas, during the 2015 federal election, an obscure blogging site quoted completely out of context a social media post the NDP candidate for Charleswood - St. James - Assiniboia - Headingley had written years before he was the nominated NDP candidate, causing the federal campaign to ask for the candidate's withdrawal without input from the local campaign;

Whereas, the Guidelines for Candidates on Adherence to Party Policy provide that, "It is understood that the decision to strip a person of candidate status will be viewed as a last resort, and will be considered only after all other methods of resolving the problem have failed.";

Be It Resolved, that the central campaign consult with the relevant local campaign officials before asking a nominated candidate to withdraw from a federal election.

BE IT RESOLVED to amend Article VI of our Federal (NDP) Constitution, modifying point 3 (a) Leader (v) as followed:

v At every Convention immediately following a general election, a pan-Canadian secret ballot shall be held by electronic voting and / or mail to determine if a leadership election is required. If the majority of the members of the party support a leadership election, the said election shall be held within one year after the said election.

## 7-36-18 Election of Regional Executive Members

*Cypress Hills--Grasslands, Prince Albert*

Where as: not all electoral districts may financially be able to send representatives to convention and yet desire to still have a voice on representative selection:

Be it resolved that Article VII EXECUTIVE subsection 3(a) be amended by striking out the words "Each region shall elect these representatives at a Caucus of delegates from the said region, and submit them to Convention for ratification."

Be it further resolved that the following subsection be added immediately after Article VII EXECUTIVE subsection 3(a):(b) Where a region, described in the above subsection (a), has a corresponding Council of Electoral District Associations, recognized by the Council under Article VIII subsection 2(a), the Council of Electoral District Associations for that region shall elect the regional representative(s) to which the region is entitled and submit them to convention for ratification. Where a region does not have a recognized Council of Electoral District Associations that corresponds geographically to that region, that region shall elect its regional representatives at a Caucus of delegates from the said region, and submit them to convention for ratification. The remaining subsections of section 2 shall be re-numbered accordingly.

And Be if further resolved that Article IX ELECTORAL DISTRICT ASSOCIATIONS subsection 2(b) be amended by adding the following additional paragraph: v. Elect representatives to the Executive in accordance with Article VII EXECUTIVE subsection 3(b) and submit them to convention for ratification.

## 7-38-18 Democratization of Policy and Platform Development

*Bruce--Grey--Owen Sound*

Whereas effective policy development process should be ongoing and responsive, and

Whereas direct involvement of the membership in policy development would be attractive to current and prospective members, and

Be it further resolved that election platform development should be part of this membership-driven initiative, and that,

*Papineau*

Whereas in 2015 there was some confusion regarding eligibility for becoming a member in good standing seeking a nomination;

BE IT FURTHER RESOLVED THAT It is proposed that an item 3 be added to Article XV (Candidates) of the Constitution: "3. Notwithstanding paragraphs 1 and 2, any person who wishes to seek the nomination at a nomination meeting must have been a member in good standing for long enough to be able to vote at such a meeting. In the event of a sudden election or byelection in a district in which the candidate has not yet been chosen, the Party may decide to waive this rule."

## 7-46-18 Socialism Back in the NDP Constitution

*Beaches--East York, Etobicoke North*

Whereas reduction of the term "socialism" in the federal NDP Constitution preamble in 2013 to a mere background reference concerning the roots of the CCF-NDP implies that the party today uncritically embraces the capitalist system, which is characterized by growing inequality, waste, environmental destruction, war and economic chaos;

And whereas the 2015 NDP federal election campaign, which focused on non-mandated policies calling for a balanced budget at all costs, and no major new taxes on corporations and the rich, represented a further shift away from traditional NDP values;

Therefore Be It Resolved that this convention amends the federal NDP Constitution to include in its preamble the following: "Socialism, a cooperative commonwealth in which public ownership and democratic control by working people of the major means of production, distribution and exchange, is the goal of the New Democratic Party."

## 7-47-18 Leadership Accountability

*Mount Royal*

Whereas the NDP suffers from the legacy of federal and provincial NDP leaders who violated NDP policies and principles adopted at conventions; And whereas no party convention mandated the "balanced budget" major theme of the 2015 NDP federal election campaign, which had disastrous consequences;

Therefore Be It Resolved that adopted policies and priorities are binding on party elected officials and staff for implementation, and that NDP leaders be subject to recall and replacement for violation of party principles, and for failure to implement policies and priorities democratically adopted by convention or federal council.

## 7-48-18 Candidate Approval Process

2. Only if the determination to bar or remove the candidate has been made shall the activity of such hearing and rationale be shared publicly by the Candidate Review Committee.

3. Once the candidate has been nominated by the EDA, should concerns about the candidate arise, the process as stated above should occur before a decision is made to remove the candidate. The National Director, council executive or EDA can trigger this process.
